Other Sources of Montana Labor Market Information

In Publications:

The following publications are available, at no charge, from the Department of Labor and Industry's Research and Analysis Bureau:

Census of Fatal Occupational Injuries—Includes information on work-related fatalities in Montana and the U.S.

County labor market information fliers—Provide information on largest private employers, employment by industry, employment and unemployment statistics, population, per capita income, local information resources, etc. for Montana counties with larger populations.

Job Projections for Montana's Industries and Occupations—Presents information developed to help people anticipate which industries and occupations are likely to show job growth in the near future, and which are not.

Montana Employment and Labor Force Trends—Presents information on statewide and county labor market information. Information is also included on employment by industry, female employment by industry, average hours and earnings, tally of new business firms, and prevailing wage rates for alien certification.

Montana labor market information flier—Statewide labor market information on largest private employers, employment by industry, employment and unemployment statistics, population, per capita income, etc.

Montana Occupational Injuries and Illnesses—Includes information on work-related injuries and illnesses, including accident rates and frequencies by industry.

Profile of the Montana Worker—A publication of charts and graphs providing a comprehensive profile of Montana and its labor force.

Statistics in Brief—Single page reference which includes data on employment and unemployment by county, labor force and service delivery areas.

Wage information publications—Include informational wage rates by occupation.

On the Internet:

The Department of Labor and Industry's Research and Analysis Bureau places much of its labor market information on the Internet at http://rad.dli.state.mt.us/. Listings of job openings and State of Montana job vacancies can be found at the State Job Service's self directed job search system address on the Internet at

Introduction

The Need for Job Trend Information

Access to the latest job trend information is crucial to everyone involved in Montana's employment picture. To meet that need, the Department of Labor and Industry's Research and Analysis Bureau develops industry and occupational job projections to help people anticipate which industries and occupations may show job growth in the near future, and which are not. Businesses, government agencies, educators, researchers, job training program planners, students and job seekers should all benefit.

1998—2008 Montana Job Projections

The industry and occupational job projections for Montana featured in this publication were made to the year 2008 based on data from 1998 and previous years, using methodology detailed on pages 44-53. Resulting job numbers are estimated numbers, subject to error, and all information applies to the state as a whole. Projections were made partly under the assumption that past employment trends will continue, that relationships with other factors such as population will continue, and that our economy's institutional framework will not undergo radical changes.

Comparable National Information

Some information on national industry and occupational job projections for 1998-2008 is incorporated in this publication beginning on page 38 so people can see how Montana's job projections compare with national projections made for the same time period. People interested in seeing more detailed information on national projections should consult the November 1999 issue of the *Monthly Labor Review*, published by the U.S. Department of Labor's Bureau of Labor Statistics or visit the bureau's Internet website at http://stats.bls.gov/.

Job Projections for Montana's Industries, 1998-2008

Although the future is never certain, it is useful to look ahead and try to determine what generally may happen in terms of the number of jobs supported within Montana's economic sectors. Most job growth involves wage and salary (payroll) jobs; consequently, wage and salary jobs will be emphasized in this narrative.

Because of the inherent uncertainty in predicting the future, all of the projections presented here should be interpreted as only a general approximation of the true level of jobs overall or for a given industry.

About 8,200 Additional Jobs a Year Projected through 2008

Roughly 82,000 net additional jobs (difference between jobs created and jobs lost) are projected for Montana between 1998 and 2008—64,000 of which are estimated to be wage and salary jobs, and 18,000 of which are projected to be self-employment jobs. This translates to about 8,200 net Montana jobs per year consisting of both wage and salary jobs (1.6 percent per year) and self-employment jobs (1.2 percent per year). Self-employment jobs are forecast to have a lower growth rate because many of these jobs are in production agriculture, which is projected to decline slightly.

Most Job Growth in Service-Producing Sectors

Most job growth (about 59,000 net payroll jobs) is projected to be in the services-producing segment of the Montana economy (the service sector), which contains industries that do not produce a physical product. Much of this growth is projected to be in eating and drinking establishments, gambling and other recreation establishments, personnel supply services, gasoline service stations, telemarketing, public postsecondary education, noneducation local government, computer services, nursing homes, doctors' offices, private hospitals, residential building contractors, hotels/motels, trucking, and research/testing services. Together, these 15 sectors account for 54 percent of projected service sector payroll job growth, and represent a mixture of low- and high-paying jobs.

Job Growth in Goods-Producing Sectors Much Smaller

Overall job growth forecast for the goods-producing segment of the Montana economy through 2008 is much more modest than for service-type sectors. Wage and salary jobs are projected to continue to decline in production agriculture. Forecast job growth for mining is very modest (0.4 percent per year), with some subsectors declining (gold, copper, crude oil and gas production, coal), counterbalanced by increasing jobs for palladium/platinum and oil/gas field services segments. Construction payroll jobs are forecast to continue to grow, particularly for building construction and associated special trades construction jobs. (Building construction is driven by population growth.) Manufacturing is estimated to be basically stagnant in job growth, similar to the U.S. manufacturing sector. Please refer to the table on pages 6–16 for more detailed projections for broadly defined industries, as well as for about 350 specific industries.

Services Jobs

Narrowly defined, services (referenced as "other private services" in the table beginning on page 6) is a major part of the broader service-producing segment of the Montana economy. It is projected to increase by about 32,000 net wage and salary jobs between 1998 and 2008. This increase accounts for half the additional Montana payroll jobs for this time period. (Information in the table on pages 6-16 details the variety of consumer, producer and professional services included in this category.)

Within the services sector, private health services is expected to increase by about 8,000 payroll jobs—or an annual growth rate of 2.3 percent—which is similar to the national growth rate for this sector. Most of the job growth is forecast in the nursing home, hospital, and doctor's office segments of health services. Health services payroll jobs paid an average of \$27,400 in 1998, well above the statewide average of \$22,500. Within health services, annual pay ranged from \$12,000 for home health care services to \$46,000 for an average job in a doctor's office.

Business services is projected to increase by roughly 7,500 wage and salary jobs between 1998 and 2008. Major components of this subsector include temporary help agencies that supply workers to various industries, telemarketing, computer services, and building maintenance services. Growth in this industry is part of a national trend. Computer services is forecast to be the component with the highest growth rate—with building maintenance and credit services as segments with the lowest growth rates. Average wages in 1998 ranged from about \$31,000 for computer services to roughly \$9,000 for building maintenance, reflecting differences in skill levels. Overall, 1998 wages in business services averaged \$15,800, well below average for Montana.

Pieces of the low-paying recreation and travel industry are located within the narrowly-defined services category—namely hotels and other lodging places, and amusement and recreational services. This latter subsector is projected to increase by approximately 4,000 payroll jobs between 1998 and 2008. Nearly all the forecast growth is in the other recreation services category, which consists principally of gambling establishments, ski areas, outfitters and the like. Average 1998 wages for this recreational services category were about \$11,000. Hotels and other lodging places is projected to increase by about 1,600 payroll jobs, with 1998 average annual wages being similar to those within other recreation services.

Private social services is projected to increase by about 3,700 payroll jobs over the period, or an average of 370 jobs per year. This is partly the result of the national trend toward shifting counseling and residential treatment programs away from situations where medical doctors are involved. Social services include nonmedical individual and family social services, nonmedical residential care, and child day care services, along with job training and vocational rehabilitation services. Wages for 1998 in this subsector averaged \$13,700.

The narrowly-defined services category also includes the engineering and management services subsector, which is projected to increase by

roughly 3,400 payroll jobs through 2008. This subsector is the second highest-paying segment of narrowly-defined services. Legal services paid the highest, with \$36,000 average pay for 1998. Engineering and management services paid \$33,100 on average. The largest growth in job numbers is forecast for the research/testing and management services segments.

Retail Trade Jobs

Retail trade (a portion of the service-producing sector) is projected to add about 13,000 payroll jobs to Montana's economy between 1998 and 2008, accounting for about 20 percent of total additional Montana payroll jobs. Retail trade is a low-paying segment of the Montana and national economies.

About one-third of the retail payroll job increase—about 4,500 jobs total or 450 jobs per year— is projected to be in eating and drinking places (fast-food outlets, restaurants and bars). Average 1998 wages in this subsector were very low at \$8,600.

The motor vehicle dealers, parts, and service stations retail trade subsector is projected to increase by roughly 3,400 wage and salary jobs. Two-thirds of the increase is projected for the gasoline service stations component of this subsector, with average 1998 wages of \$12,600. A major portion of the gasoline service stations and eating/drinking places subsectors serves out-of-state travelers.

Other retail stores (e.g., sporting goods, drugstores and gift shops) serves both Montana residents and travelers to the state. The projected 1998 to 2008 payroll job increase for this retail subsector is about 1,400 jobs. Jobs in independent drugstores are forecast to decline, presumably as a result of competition from large general retailers with prescription drug departments. Average 1998 wages for other retail trade were \$13,900.

Wage and salary jobs in general merchandise stores, both discount and nondiscount, are projected to increase by about 1,300 over the 1998 to 2008 time period. 1998 annual wages were \$14,300.

Retail building materials stores are forecast to add 1,200 payroll jobs over the period, largely as the result of projected building construction activity. 1998 average annual wages were \$20,500. This is a higher-wage component of retail trade, but wages are still below the Montana average.

Other components of retail trade—home furnishings stores and retail food stores—are projected to have smaller job increases.

Strictly apparel stores are projected to decrease in payroll employment.

Construction Jobs

Most of the growth in goods-producing industries is projected to be in the construction sector, which is forecast to grow by 4,800 jobs between 1998 and 2008. Within construction, the growth area is in both general building contractors and special trade contractors (e.g., plumbing, heating and electrical) subsectors. Heavy construction is projected to increase slightly over the 1998 to 2008 time period, assuming that recent federal highway funding is not extended beyond its legislated 6-year time horizon. Also, this latter sector is tied to a smaller number of specific large projects, such as pipelines, as compared with building construction. This characteristic of heavy construction leads to volatile employment levels.

Construction is a higher annual wage sector, with 1998 average Montana wages of \$28,000. Heavy construction is the highest wage component, \$34,700 for 1998. General building contractors and special trade contractors are at about the same level, with 1998 annual wages of \$26,000 and \$26,400, respectively.

Finance, Insurance and Real Estate Jobs

Finance, insurance, and real estate services combined are forecast to grow by about 3,700 payroll jobs. Finance is projected to grow by 1,700 jobs, mostly in the banking segment of the industry. Finance also includes securities brokers and services, the highest-paying segment of the Montana economy, paying \$68,400 on average in 1998. Average pay for banking was more modest at \$27,000. Primarily driven by population change, the real estate subsector should show an increase of about 1,000

wage and salary jobs. This is a lower-paying sector at \$17,600 for 1998. The insurance carriers segment is projected to increase by 600 jobs, partly because of the planned expansion of National Electronics Warranty Corporation's customer service operation in Great Falls. According to newspaper accounts, these customer service jobs are lower-paying jobs. The insurance agents and services subsector is projected to grow modestly.

Transportation, Communications and Utilities Jobs

Transportation, communications and utilities services together are projected to increase by about 2,700 payroll jobs. The railroad; electric, gas, and sanitary services; and small pipeline subsectors are all projected to have employment declines—which is also true nationally. Jobs in arrangement of passenger transportation (mostly travel agencies) and local transportation (includes school bus contractors) subsectors are projected to be essentially flat. Travel agencies are experiencing heavy competition from Internet sales. Some of the projected decline in railroad transportation and pipeline jobs is due to restructuring and substituting capital equipment for labor. Electric services is projected to decline as the result of competition being introduced into the industry. 1998 annual wages were about \$41,000 for electric services, \$55,000 for railroads and \$54,500 for the small pipelines subsector—all high-paying segments of the Montana economy.

The rest of this portion of the Montana economy is projected to have increased employment, led by the trucking and warehousing subsector with a projected increase of 1,500 wage and salary jobs. The communications subsector will increase in employment as the result of national trends. It remains to be seen if the telephone communications increase, which is most of this subsector's increase, will be in customer service jobs or in more highly paid jobs.

Wholesale Trade Jobs

Wholesale trade, which primarily provides services to businesses, is projected to increase by about 2,500 payroll jobs between 1998 and 2008.

More growth is anticipated for the more highly paid durable goods component (\$29,700 in 1998) of wholesale trade, than the nondurable segment (\$26,100).

Government Jobs

Between 1998 and 2008, government employment is projected to grow at about two-fifths the annual rate for the economy as a whole (0.6 percent vs. 1.5 percent) for a total of 5,100 jobs.

Three detailed components of the government (public services) sector are projected to decline: federal jobs, except postal workers; jobs at the Warm Springs State Hospital; and local government hospitals.

The federal job decline is part of a national trend. 1998 average wage per federal job was high at \$38,500.

The newly completed state hospital facility requires fewer workers because of fewer patients, resulting in part because of the movement toward community-based treatment. State hospital jobs paid an average of \$25,300 in 1998.

Jobs for local government hospitals are forecast to decline only slightly. Much of the government sector job growth will be in the state postsecondary component of public education. Adult population growth and research contracts are driving employment increases in this segment of public education. A total increase of roughly 2,100 jobs is projected for the 1998 to 2008 time period in the state education sector, where 1998 wages averaged about \$26,000.

Other local government (excluding education) jobs are projected to increase by about 1,900 through 2008 in response to population growth. This is a lower than average wage segment of the Montana economy, with 1998 annual wages at about \$21,000.

Additional modest growth is projected for local education (0.4 percent or 120 jobs per year). These jobs averaged \$23,500 for 1998—\$1,000 above the state economy average.

Other state government (noneducation) is projected to increase by roughly 600 jobs over the period 1998 to 2008, an annual growth rate of 0.5 percent.

Manufacturing Jobs

Manufacturing is projected to increase by roughly 800 payroll jobs in spite of forecast declines in the sporting goods fabrication, primary

aluminum and lead processing, and wood products industries of about 1,000 jobs, combined. Projected increases in other segments of manufacturing overcome this deficit. The largest increases are projected for industrial machinery, printing and publishing, furniture, and fabricated textiles.

Mining Jobs

The mining sector—which includes energy minerals, metals, and nonmetallic minerals—is projected to increase slightly by about 200 jobs between 1998 and 2008. This stagnation is caused in part by projected declines in most segments of the industry, except for a portion of metal mining and the oil and gas services subsector. Employment growth for nonmetallic, nonenergy minerals such as sand/gravel and talc is basically flat. The metal mining subsector is projected to increase because of the opening of a new platinum/palladium mine in Sweet Grass County. Work on constructing the mine began in 1998. The operating workforce for this mine more than counterbalances the anticipated closure of the Golden Sunlight gold mine in Jefferson County.

Agriculture, Forestry, Hunting and Trapping Jobs

The agriculture, forestry and hunting segment of the goods-producing portion of the Montana economy has been—and still is—dominated by production agriculture, the raising of crops and livestock. Production agriculture has experienced employment declines in both payroll and self-employment jobs for many decades. Projected to continue, this decline is caused partly by the substitution of machinery and equipment (tractors, etc.) for labor. A decrease of 2,100 agricultural wage and salary (mostly hired hands) jobs is projected for the 1998-2008 period. On the other hand, agricultural services, which includes landscape and veterinary services used by private households, is projected to increase in keeping with projected population increases.

Job Projections for Montana's Occupations, 1998-2008

It is estimated there will be about 205,000 wage and salary and selfemployment jobs opening up in Montana from 1998 through 2008. About 82,000 of those jobs will be generated by industry growth in the state. The remaining jobs will be replacement jobs filled by employers after workers leave existing jobs for various reasons. Montana workers can expect to see about 21,000 full- and part-time jobs opening up each year from a combination of industry growth and worker replacement.

Occupations Projected to Increase

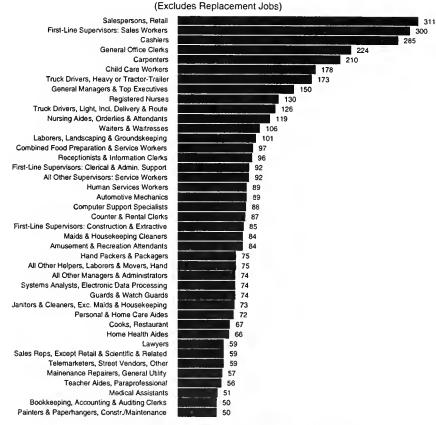

from Industry Growth

Occupations projected to show the largest job increases because of industry growth are salespersons, retail; first-line supervisors and managers/supervisors, sales and related workers; cashiers; general office clerks; carpenters; child care workers; truck drivers, heavy or tractor-trailer; general managers and top executives; registered nurses; truck drivers, light, including delivery and route workers; nursing aides, orderlies and atendants; and waiters and waitresses. See chart on this page.

More detailed information on Montana's growing occupations can be found on the Research and Analysis Bureau's website at http://rad.dli.state.mt.us/.

Jobs Gained Annually Due to Industry Growth 1998-2008

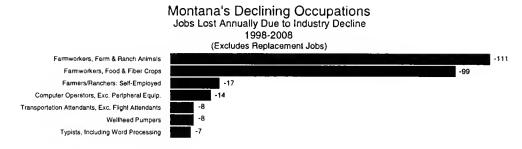

Source: Research & Analysis Bureau, Montana Department of Labor & Industry

Occupations Projected to Show Decline Due to Industry Decline and Changing Technology

The two occupations projected to show the largest job declines due to declining industries and changing technology are farmworkers, farm and ranch animals, with an estimated annual loss of 111 jobs a year, and farmworkers, food and fiber crops, with an estimated annual loss of 99 jobs a year. The farmers/ranchers, self-employed occupation is projected to lose about 17 jobs a year, and computer operators, except peripheral equipment is projected to decline by about 14 jobs a year. Other occupations are projected to show smaller job losses. See chart at right.

Fastest Growing Occupations (Which Often Involve Small Number of Jobs)

The fastest growing occupations are those occupations with the largest percentage gains in total jobs. Some of those occupations with large percentage gains involve small numbers of jobs. For instance, projections show the occupation of nuclear technicians and technologists achieving a 100 percent gain in jobs, 1998-2008—but involving a net projected gain of only three jobs. See chart at right.

Occupations Increasing Due to Both Growth AND Replacements Provide Largest Number of Jobs

Usually openings resulting from replacement needs are greater than those from industry growth—and more jobs will generally be available in large occupations that experience a need to replace workers rather than in occupations experiencing actual growth in demand.

The table on this page shows annual job opening projections based on growth AND replacements. Growth is the increase in demand for workers in specific occupations—and replacements arise from the need to replace workers leaving the labor force (e.g., due to death, retirement, going home to care for children or a sick relative, taking a job in another state, etc.).

In Montana, occupations projected to generate over 300 job openings annually from growth AND replacements are salespersons, retail; cashiers; waiters and waitresses; combined food preparation and service workers; general office clerks; carpenters; first-line supervisors and managers/supervisors, sales and related workers; and farmers/ranchers: self-employed. (Note: The farmers/ranchers: self-employed occupation continues to generate large numbers of jobs each year through replacements, even though it is projected to lose about 17 jobs a year due to industry decline. See previous page.)

The table on this page shows some of the occupations in Montana increasing due to both an increase in demand AND the replacement of workers leaving jobs for a variety of reasons.

Specific Job Projections by Occupation

Please refer to the following pages of data for specific occupational job projection information presented in alphabetical order, by occupation. Occupations with annual (rather than hourly) wage information are listed on page 36.

Montana occupational job projection information is presented in a variety of data sorts on the Research and Analysis Bureau's website at http://rad.dli.state.mt.us/.

Job Projections for U.S. Industries, 1998-2008

U.S. Employment Projected to Grow by 20.3 Million Jobs

The U.S. Bureau of Labor Statistics projects total U.S. employment will grow by 20.3 million jobs from 1998-2008, translating to about 1.4 percent growth per year.

Most job growth is projected to occur in nonfarm, wage and salary jobs, with agricultural jobs projected to decline overall. The services and retail trade industry divisions will account for nearly three-quarters of all new jobs.

Goods-Producing Industries Projected to Gain about 346,800 Jobs

Mining: Mining wage and salary jobs are expected to decline by about 2.1 percent a year from 590,000 to 475,000 between 1998 and 2008. Three industries with nearly half of the employment in the mining division—metal mining; coal mining; and crude petroleum, natural gas and gas liquids—account for about 90 percent of the decline. Oil and gas field services is the only mining sector projected to experience any growth—from 196,000 jobs in 1998 to 205,000 in 2008. While mining employment declines, increases in productivity are expected to result in overall output growth of 1.2 percent a year.

Construction: Construction is the only goods-producing sector projected to gain employment between 1998 and 2008, increasing by 550,000 new jobs. Projected annual job growth of 0.9 percent is down, however, from the 1.6 percent growth posted during the previous 10-year period.

Manufacturing: The historic decline in manufacturing employment is expected to moderate. Employment is projected to shrink by an annual rate of 0.3 percent from 18.8 million to 18.7 million jobs between 1998 and 2008.

Service-Producing Industries Projected to Grow by 19.1 Million Jobs

Narrowly Defined Services: Services employment is projected to increase by an annual growth of 2.8 percent through 2008, amounting to 11.8 million new wage and salary jobs during the 10-year period. From 1998-2008, 4.6 million jobs are projected to be added in business services, 2.8 million jobs in health services and 1.1 million jobs in engineering management and other services. The fastest employment growth in the entire U.S. economy is in computer and data processing services (8.1 percent per year).

Wholesale and retail trade: Wholesale trade is projected to gain about 500,000 jobs from 1998-2008 for an annual growth rate of 0.7 percent. Retail trade is projected to add about 1.7 million jobs—for an annual growth rate of 1.3 percent.

Government: Government employment is projected to increase by an annual growth rate of 0.9 percent and 1.9 million jobs overall from 1998-2008. State and local government education is expected to show the fastest employment growth within the public sector, with 1.3 percent annual growth through 2008. State and local government overall is expected to grow at an annual rate of 1.1 percent. Federal government jobs are projected to decline by 0.5 percent annually through 2008.

Transportation, communications and utilities: Transportation, communications and utilities is projected to add about 940,000 jobs (1.3 percent annual growth) from 1998-2008. The telephone, telegraph and communications services industry is projected to produce 244,000 of those new jobs.

Finance, insurance and real estate: It is projected that finance, insurance and real estate will add 960,000 jobs (1.2 percent annual growth)

from 1998-2008. The security and commodity brokers industry is expected to account for 255,000 of those jobs.

The table on this page shows the projected growth or decline of jobs within major U.S. industry divisions. More detailed information can be

found in the November 1999 issue of the Bureau of Labor Statistics' *Monthly Labor Review* publication or on the bureau's Internet website at http://stats.bls.gov/.

Job Projections for U.S. Occupations, 1998-2008

Occupational Job Projections, 1998-2008

The U.S. Bureau of Labor Statistics projects an increase of 55 million job openings for the nation from 1998-2008. Of those job openings, about 20.3 million will result from employment growth in the economy and another 34.7 million will come when jobs vacated by workers who leave the labor force or move to other occupations are filled with replacement workers. Generally, openings resulting from replacement needs are far greater than those coming from increased demand. Large occupations that are not expected to show much job growth will generate more jobs than fast-growing smaller occupations.

Employment Growth within Occupational Groups

Employment in professional specialty occupations (e.g., computer engineers, system analysts, teachers, registered nurses, etc.) is projected to increase the fastest and add the most jobs from 1998-2008. The small technicians and related support occupations group (e.g., health technicians and technologists, engineering technicians, etc.) is projected to rank 2nd in growth. The services occupations group (e.g., cleaning, food preparation and service, protective services, etc.) is projected to rank 3rd in growth—and the executive, administrative and managerial occupations group is projected to rank 4th. Together, professional specialty occupations and service occupations, which are on the opposite ends of the educational spectrum, are expected to provide 44 percent of the total job growth in the United States from 1998 to 2008.

Education and Training Requirements

All of the occupational categories requiring at least an associate degree are projected to have faster-than-average employment growth from 1998-2008. Occupations requiring an associate degree or more education will account for 40 percent of total job growth from 1998-2008— up from about 25 percent in 1998.

U.S. Occupations with the Largest Job Growth

Most of the occupations with the largest projected job growth for 1998-2008 are concentrated in retail trade (which includes eating and drinking places); business services; health services; and public and private education.

Within retail trade, a large number of additional jobs are expected for retail salespersons; cashiers; waiters and waitresses; marketing and sales worker supervisors; and food, counter, fountain and related workers.

In the business services sector, the computer and data processing services industry is expected to generate lots of jobs for systems analysts; computer support specialists; and computer engineers.

The health services sector is projected to provide numerous opportunities for registered nurses; personal care and home health aides; and nursing aides, orderlies and attendants.

Within public and private education, jobs are expected to increase for teacher assistants; elementary and secondary school teachers; and college and university faculty.

Other occupations—such as general managers and top executives; janitors and cleaners; and truck drivers—will provide a large number of jobs mainly due to the large size of those occupations.

The table on this page lists those occupations that are projected to generate the most new jobs due to industry growth (excluding replacement jobs) in the U.S. economy during the 1998-2008 time period.

U.S. Occupations with the Largest Job Decline

Projected declines in industry employment and changes in occupational staffing patterns are expected to reduce demand for workers in some occupations over the 1998-2008 period.

Industry employment change is the major reason for projected employment declines for sewing machine operators, garment; and for butchers and meatcutters. Technological change is the major reason for projected declines for word processors and typists; bookkeeping, accounting and auditing clerks; and bank tellers.

Occupations expected to decline because of both industry and occupational structure changes include farmers; farmworkers; welfare eligibility workers and interviewers; and railroad brake, signal and switch operators.

The table on this page lists those occupations that are projected to lose the most jobs (excluding replacement jobs) in the United States from 1998-2008.

Methodology for Montana Industry Jobs Projections

The first step in the industry employment projection methodology was to assemble historical employment data at the 3-digit Standard Industrial Classification (SIC) level. The Standard Industrial Classification scheme is a collection of numerical codes used as a standard for compiling economic data by industry. The 3-digit coding level is a fairly detailed level. (See the first column of the "Factors Used to Project Montana Industry Jobs" table on pages 46-52.)

The data source for the recent historical employment data was primarily administrative records from the Montana unemployment insurance system, the so-called ES-202 data. Also used as base were 3-digit industry level data for 1961-1984 from the Current Employment Statistics (CES) program. Presumed noncovered employment was added to the recent ES-202 data for life insurance, private colleges and universities, private job training and vocational rehabilitation, religious organizations, state and local government education, and other local government.

The unemployment insurance system does not cover self-employed jobs, except on a very limited voluntary basis. The state system also does not cover railroad workers. In addition, there is only partial unemployment insurance coverage of production agriculture in Montana. Historical jobs information constructed by the Bureau of Economic Analysis (BEA), U.S. Department of Commerce, was used for self-employed jobs and production agriculture jobs. BEA in turn used Internal Revenue Service tax information to construct their self-employment data series. Information from the 5-year Censuses of Agriculture and from the U.S. Department of Agriculture was used by BEA to estimate jobs for all of production agriculture. Published information on railroad employment from the Current Employment Statistics Program was used for the

railroad industry. For all industries, historical information was available through the year 1998, with many economic sectors having information back to 1961.

Because of both systematic and individual establishment changes in SIC codes over the 1961-1998 time period, numerous adjustments to individual 3-digit sectors were required. The individual establishment SIC updating is an ongoing process. The systematic SIC changes happened with the publication of the 1967, 1972 and 1987 SIC manuals. The SIC reconciliation and sector adjustment was time-consuming, but very necessary for this projection project. Not all SIC changes could be reconciled resulting in shortened time series for some industries.

The second step in the methodology was to relate employment in a given industry to factors that tend to be associated with change in that industry's employment—such as national employment for the same industry or Montana's population. These and other factors were chosen based on economic theory, and analysts' knowledge of particular industries.

The third step was to estimate the quantitative relationship between a given industry's employment level over time and predictor factors or variables, like population. The statistical technique that was primarily used is called regression analysis. Standard statistical evaluation tools were employed to choose among different sets of variables. In 38 industries, the best projection was obtained by trending into the future the industry's historical employment level without relating that level to any predictor variables other than year. For very small industries, generally with employment levels less than 25, the growth rate for the counterpart U.S. industry was used to free up time for the larger industries. This method was used for 88 industries. Also, a dummy variable was used

from time to time for usual events such as major plant closings/openings, elections, and SIC changes. The table on pages 46-52 summarizes the factors and other methodological issues for each of Montana's industries.

The fourth step used forecast levels of predictor variables to project the year 2008 employment level for each Montana industry. For the national sector predictor variable, employment projections for counterpart U.S. industries were available from the U.S. Department of Labor's Bureau of Labor Statistics. Both published and unpublished national industry data were used to forecast 114 Montana industries. The published data was in the November 1999 issue of the BLS *Monthly Labor Review*.

For the predictor variable population, the forecast level of Montana's total population used was derived from one constructed by NPA Data Services (formerly known as the National Planning Association), a longstanding Washington, D.C. research organization. NPA Data Services projects total population (also by age) for all counties and states in the U.S. The 1998-2008 growth rate for the NPA Montana population forecast was 0.9 percent per year, basically the same as the NPA forecast U.S. growth rate. Based on the de-acceleration of Montana population growth over the 1996-1999 period, the NPA forecast level of Montana population was judgmentally reduced to 954,000, or 0.8 percent per year. Population was used as an independent (predictor) variable for 61 industries.

Montana building construction employment was an important predictor variable for sectors that are tied to building activity. These included special trade contractors (most special trade employees—such as carpenters, electricians and plumbers—work on buildings). Building construction jobs also influenced concrete products manufacturing, retail building supplies stores, mobile home dealers, engineering/architectural services, and wholesale lumber, electrical, and plumbing/heating sectors.

The fifth and last step involved comparing the produced projections with similar Montana projections done by other organizations in order to gauge the reasonableness of the generated projections.

NPA Data Services projects industry employment by broad industry groups that include the self-employed. Its September 1999 employment projection averaged 1.7 percent growth between 1997 and 2008, compared with 1.5 percent growth for Montana industry projections highlighted in this publication. In late 1999, another research firm, Woods and Poole Economics, Inc., projected a growth rate of 1.8 percent overall for 1997 to 2005, and 1.6 percent per year for 1997 to 2010.

These comparisons support the conclusion that the projections contained in this report are reasonable overall. Because the future is always uncertain, however, individual projections are rarely precisely accurate.

Please refer to the "Factors Used to Project Montana Industry Jobs" table on the following 7 pages for a more detailed presentation of the factors used to project Montana industry employment for specific industry sectors and subsectors.

Methodology for Montana Occupational Jobs Projections

Employment by Occupation

The main source of occupational information in this publication is the Occupational Employment Statistics (OES) program which surveys Montana's employers over a 3-year period to develop estimated occupational employment by industry type.

The data enables us to build an industry-occupational (I/O) matrix. This I/O matrix is a table arraying the occupational staffing patterns for each industry: i.e., the ratio of employment in each occupation within an industry to the total employment in the industry. For purposes of this report, the OES survey results for 1996-1998 were used to develop industry staffing patterns. Then the staffing patterns were applied to the 1998 base year employment to develop a base year I/O matrix.

Projected Employment by Occupation

Projected employment by occupation is derived by applying the base year I/O matrix to the projected industry employment. Before the I/O matrix is applied it must be modified to take into account those occupations which are expected to undergo technological or structural changes and alter the staffing pattern of those industries in which the occupations are found.

This change factor has been developed by the U.S. Bureau of Labor Statistics and was applied to the base year I/O matrix to obtain an enhanced base year I/O matrix. The enhanced matrix is applied to the projected industry employment.

Job Openings

This publication also provides an estimate of the number of average annual job openings for each listed occupation. The number of job openings is then broken down into component parts of growth and replacements because job opportunities stem either from net employment growth (an increase in demand for workers in a particular occupation) or from replacement demand (the need to replace workers who have left the occupation and/or the labor force).

Average annual job openings due to growth represent the number of new jobs resulting from the projected change in industry employment between the base year and the projected year on an annual basis. Job openings due to replacements differ, though, in that they represent employers' replacement needs. These figures are derived by applying precalculated replacement rates supplied by the U.S. Department of Labor's Bureau of Labor Statistics to the previously determined projected occupational employment.

For most occupations in most states, openings resulting from replacement needs are greater than those generated by increased demand and therefore critical to supplying reliable information many individuals and organizations use to make informed decisions on career choices, educational programs offered and training programs funded.

These replacements occur when people leave the labor force (e.g., retirements, return to school, quitting work to raise children, or death). They also represent the net effect of transfers to new occupations. Replacement rates vary significantly among occupational groups and have been determined as a result of national studies by the Bureau of Labor Statistics.

Wage Rates and Training Levels Required

This publication also includes OES wage rates for occupations, when available—and information about the training level required for each occupation.

Limitation

Using percentages to reflect changes in industrial or occupational employment can at times be misleading. If the base number being used is quite small, large percentage swings are possible. For instance, an occupation may show a startling 100 percent growth rate, but in actuality may have only gone from a base employment of 10 to a projected employment of 20.

Occupational Code, Title and Description

Staff and Administrative Specialty Managerial Occupations

13002 - Financial Managers - Plan, organize, direct, control, or coordinate the financial activities of an organization. Include managers who negotiate general policy with financial or other institutions or managers in banks, or similar financial institutions, who advise on credit and investment policy.

13005 - Personnel, Training, and Labor Relations Managers - Plan, organize, direct, control, or coordinate the personnel, training, or labor relations activities of an organization. Work may involve establishing employer/employee relations policies; directing the selection, training, and evaluation of employees; administering benefits, safety, and recreation programs; developing wage and salary schedules; coordinating collective bargaining activities; and advising on labor contract administration.

13008 - Purchasing Managers - Plan, organize, direct, control, or coordinate the activities of buyers, purchasing officers, and related workers involved in purchasing materials, products, or services. Include Wholesale or Retail Trade Merchandising Managers.

13011 - Marketing, Advertising, and Public Relations Managers - Formulate marketing policies, direct sales activities, and plan, organize, and direct advertising and public relations activities for a department, an entire organization, or on an account basis.

13014 - Administrative Services Managers - Plan, organize, direct, control, or coordinate the supportive services department of a business, agency, or organization. Managers who spend less than 80 percent of their time in administrative services should be classified in another appropriate managerial category. Include Property Managers and Contract Administrators. Exclude Procurement Managers.

13017 - Engineering, Mathematical, and Natural Sciences Managers - Plan, organize, direct, or coordinate activities in such fields as architecture, electronic data processing, engineering, life sciences, physical sciences, statistics, and systems analysis. These persons spend the greatest portion of their time in managerial work for which a background consistent with that described for engineers, mathematicians, or natural scientists is required.

Line and Middle Management Industry Specific Managerial Occupations

15002 - Postmasters and Mail Superintendents - Direct and coordinate operational, administrative, management, and supportive services of a U.S. post office; or coordinate activities of workers engaged in postal and related work in assigned post office.

15005 - Education Administrators - Plan, organize, direct, control, or coordinate the educational activities of colleges and universities; elementary, secondary, or postsecondary schools; vocational or technical schools; or training and instructional organizations (or programs) in private business or other agencies.

15008 - Medicine and Health Services Managers - Plan, organize, direct, control, or coordinate medicine and health services in establishments such as hospitals, clinics, or similar organizations.

15011 - Property and Real Estate Managers and Administrators - Plan, organize, direct, control, or coordinate buying, selling, or leasing activities of real estate properties for clients or employer. Include managers of rented or leased housing units, buildings, or land (including rights-of-way). Exclude workers whose duties are not primarily managerial. Workers who are engaged primarily in direct buying, selling, or renting of real estate should be reported as Sales Workers.

15014 - Industrial Production Managers - Plan, organize, direct, control, or coordinate the work activities and resources necessary for manufacturing products in accordance with cost, quality, and quantity specifications.

15017 - Construction Managers - Plan, organize, direct, control, or coordinate, usually through subordinate supervisory personnel, activities concerned with the construction and maintenance of structures, facilities, and systems. Include specialized construction fields such as carpentry or plumbing. General Managers of large construction contracting firms should be reported as General Managers and Top Executives.

15021 - Mining, Quarrying, and Oil and Gas Well Drilling Managers - Plan, organize, direct, control, or coordinate, usually through subordinate supervisory personnel, the operations of mines, quarries, oil or gas wells, or other similar operations that extract natural deposits.

15023 - Communications, Transportation, and Utilities Operations Managers-Plan, organize, direct, control, or coordinate activities related to: Communications by telephone, telegraph, radio, or television; transporting people or goods by air, highway, railway, water, or pipeline; managing transportation facilities, such as airports, harbors, or terminals; managing warehousing and storage facilities; or supplying electricity, gas, water, steam, or sanitation services. General Managers of large establishments or operations should be reported as General Managers and Top Executives.

15026 - Food Service and Lodging Managers - Plan, organize, direct, control, or coordinate activities of an organization or department that serves food and beverages and/or provides lodging and other accommodations. Include Food and Beverage Directors.

Other Managerial and Administrative Occupations

19002 - Public Administration Chief Executives, Legislators, and General Administrators - Formulate and establish government policy and develop federal, state, or local laws, rules, and regulations. General Administrators who do not have overall responsibility for the state or a local government entity (e.g., county, city, town, or township) should be reported as General Managers and Top Executives.

19005 - General Managers and Top Executives - Top and middle managers whose duties and responsibilities are too diverse and general in nature to be classified in any functional or line area of management and administration. These managers generally work through departmental or subordinate executives.

19999 - All Other Managers and Administrators - All other managers and administrators not classified separately above.

Management Support Occupations

Accountants, Auditors, and Other Financial Specialists

- 21102 Insurance Underwriters Review individual applications for insurance to evaluate degree of risk involved and determine acceptance of applications.
- 21105 Credit Analysts Analyze current credit data and financial statements of individuals or firms to determine the degree of risk involved in extending credit or lending money. Prepare reports with this credit information for use in decision-making.
- 21108 Loan Officers and Counselors Evaluate, authorize, or recommend approval of commercial, real estate, or credit loans. Advise borrowers on financial status and methods of payments. Include Mortgage Loan Officers or Agents, Collection Analysts, and Loan Servicing Officers.
- 21111 Tax Preparers Prepare tax returns for individuals or small businesses but do not have the background or responsibilities of an accredited accountant or certified public accountant. May work for established tax return firm.
- 21114 Accountants and Auditors Examine, analyze, and interpret accounting records for the purpose of giving advice or preparing statements. Install or advise on systems of recording costs or other financial and budgetary data.
- 21117 Budget Analysts Examine budget estimates for completeness, accuracy, and conformance with procedures and regulations. Examine requests for budget revisions, recommend approval or denial, and draft correspondence. Analyze monthly department budgeting and accounting reports for the purpose of maintaining expenditure controls. Provide technical assistance to officials in the preparation of budgets.
- 21199 All Other Financial Specialists All other financial specialists not classified separately above.

Purchasing Agents and Buyers

- 21302 Wholesale and Retail Buyers, Except Farm Products Buy merchandise or commodities (other than farm products) for resale to consumers at the wholesale or retail level, including both durable and nondurable goods. Analyze past buying trends, sales records, price, and quality of merchandise to determine value and yield. Select, order, and authorize payment for merchandise according to contractual agreements. May conduct meetings with sales personnel and introduce new products. Include Assistant Buyers.
- 21305 Purchasing Agents and Buyers, Farm Products Purchase farm products either for further processing or resale. Include Christmas Tree Contractors, Grain Brokers and Market Operators, Grain Buyers, and Tobacco Buyers.

21308 - Purchasing Agents, Except Wholesale, Retail, and Farm Products - Purchase raw or semifinished materials for manufacturing. Purchase machinery, equipment, tools, parts, supplies, or services necessary for the operation of an establishment. Include Contract Specialists, Field Contractors, Purchasers, Price Analysts, Tooling Coordinators, and Media Buyers.

Personnel, Training, Labor Relations Specialists, and Related Occupations

- 21505 Special Agents, Insurance Recruit independent insurance sales agents in field and maintain contact between them and home office. Advise agents on matters pertaining to conduct of business such as cancellations, overdue accounts, technical problems, claims procedures, new business contacts, and new products. May gather information for underwriter.
- 21508 Employment Interviewers, Private or Public Employment Service Interview job applicants in employment office and refer them to prospective employers for consideration. Search application files, notify selected applicants of job openings, and refer qualified applicants to prospective employers. Contact employers to verify referral results. Record and evaluate various pertinent data.
- 21511 Personnel, Training, and Labor Relations Specialists Conduct programs of recruitment, selection, placement, training, promotion, welfare, safety, compensation, or separation of employees. May specialize in specific areas such as labor-management relations, counseling, job analysis, position classification, training, or compensation. Exclude occupations in personnel research and in administration of testing and counseling programs for which a background in psychology is required. Exclude Employment Interviewers, Private or Public Employment Service.

Other Management Support Occupations

- 21902 Cost Estimators Prepare cost estimates for product manufacturing, construction projects, or services, to aid management in bidding on or determining price of product or service. May specialize according to particular service performed or type of product manufactured.
- 21905 Management Analysts Review, analyze, and suggest improvements to business and organizational systems to assist management in operating more efficiently and effectively. Conduct organizational studies and evaluations, design systems and procedures, conduct work simplification and measurement studies, and prepare operations and procedures manuals. Exclude Computer Systems Analysts.
- 21908 Construction and Building Inspectors Inspect new or remodeled construction to determine its soundness and compliance to specifications, building codes, and other regulations. Inspections may be general in nature or may be limited to a specific area, such as electrical systems or elevators.
- 21921 Claims Examiners, Property and Casualty Insurance Review settled insurance claims to determine that payments and settlements have been made in accordance with company practices and procedures, insuring that adjusters have followed proper methods. Report overpayments, underpayments, and other irregularities. Confer with legal counsel on claims requiring litigation.

21999 - All Other Management Support Occupations - All other management support workers not classified separately above.

Engineers

- 22108 Mining Engineers, Including Mine Safety Determine the location and plan the extraction of coal, metallic ores, nonmetallic minerals, and building materials, such as stone and gravel. Work involves conducting preliminary surveys of deposits or undeveloped mines and planning their development; examining deposits or mines to determine whether they can be worked at a profit; making geological and topographical surveys; evolving methods of mining best suited to character, type, and size of deposits; and supervising mining operations.
- 22111 Petroleum Engineers Devise methods to improve oil and gas well production and determine the need for new or modified tool designs. Oversee drilling and offer technical advice to achieve economical and satisfactory progress.
- 22114 Chemical Engineers Design chemical plant equipment and devise processes for manufacturing chemicals and products such as gasoline, synthetic rubber, plastics, detergents, cement, paper, and pulp by applying principles and technology of chemistry, physics, and engineering.
- 22121 Civil Engineers, Including Traffic Perform engineering duties in planning, designing, and overseeing construction and maintenance of structures and facilities such as roads, railroads, airports, bridges, harbors, channels, dams, irrigation projects, pipelines, power plants, water and sewage systems, and waste disposal units. Include Traffic Engineers who specialize in studying vehicular and pedestrian traffic conditions.
- 22126 Electrical and Electronic Engineers Design, develop, test, and supervise the manufacturing and installation of electrical and electronic equipment, components, or systems for commercial, industrial, military, or scientific use. Exclude Computer Engineers.
- 22127 Computer Engineers Analyze data processing requirements to plan EDP system to provide system capabilities required for projected workloads. Plan layout and installation of new system or modification of existing system. May set up and control analog or hybrid computer systems to solve scientific and engineering problems.
- 22128 Industrial Engineers, Except Safety Perform engineering duties in planning and overseeing the utilization of production facilities and personnel in department or other subdivision of industrial establishment. Plan equipment layout, workflow, and accident prevention measures to maintain efficient and safe utilization of plant facilities. Plan and oversee work, study, and training programs to promote efficient worker utilization. Develop and oversee quality control, inventory control, and production record systems. Exclude Industrial Product Safety Engineers.
- 22132 Safety Engineers, Except Mining Apply knowledge of industrial processes, mechanics, chemistry, psychology, and industrial health and safety laws to prevent or correct injurious products or environmental conditions and mini-

- mize effects of human traits or product characteristics that create hazards to life and property or reduce worker morale and efficiency. Include Industrial Product Safety Engineers.
- 22135 Mechanical Engineers Perform engineering duties in planning and designing tools, engines, machines, and other mechanically functioning equipment. Oversee installation, operation, maintenance, and repair of such equipment as centralized heat, gas, water, and steam systems.
- 22199 All Other Engineers All other engineers not classified separately above.

Architects and Surveying and Mapping Scientists

- 22302 Architects, Except Landscape and Marine Plan and design structures, such as private residences, office buildings, theaters, factories, and other structural property.
- 22308 Landscape Architects Plan and design land areas for such projects as parks and other recreational facilities, airports, highways, hospitals, schools, land subdivisions, and commercial, industrial, and residential sites.
- 22311 Surveyors and Mapping Scientists Use surveying, engineering, and scientific data to determine and identify fixed points or boundaries, and prepare maps for legal and design purposes. Provide data relevant to the shape, contour, gravitation, location, or dimension of land or land features for construction, mining, land evaluation, or other purposes.

Engineering and Related Technicians and Technologists

- 22502 Civil Engineering Technicians and Technologists Apply theory and principles of civil engineering in planning, designing and overseeing construction and maintenance of structures and facilities under the direction of engineering staff or physical scientists.
- 22505 Electrical and Electronic Engineering Technicians and Technologists Apply electrical and electronic theory and related knowledge to design, build, test, repair, and modify developmental, experimental, or production electrical equipment in industrial or commercial plants for subsequent use by engineering personnel in making engineering design and evaluation decisions.
- 22511 Mechanical Engineering Technicians and Technologists Apply theory and principles of mechanical engineering to develop and test machinery and equipment under direction of engineering staff or physical scientists.
- 22514 Drafters Prepare working plans and detail drawings from rough or detailed sketches and notes for engineering or manufacturing purposes according to specified dimensions. Utilize knowledge of various machines, engineering practices, mathematics, building materials, and other physical sciences to complete drawings. May use computer-assisted drafting (CAD) equipment and software.
- 22521 Surveying and Mapping Technicians Perform surveying and mapping duties to obtain data pertaining to angles, elevations, points, and contours used for construction, mapmaking, boundary location, mining, or other purposes.

Calculate mapmaking information from field notes using reference tables. Draw maps of geographical areas from source data such as surveying notes, aerial photography, or other maps to show natural and constructed features, political boundaries, and other features. Draw topographical maps from aerial photographs or verify accuracy and completeness of topographical maps. Exclude Surveyors, Cartographers, and Geodesists.

22599 - All Other Engineering and Related Technicians and Technologists - All other engineering and related technicians and technologists not classified separately above.

Natural Scientists and Related Occupations

Physical Scientists

24105 - Chemists, Except Biochemists - Conduct qualitative and quantitative chemical analyses or chemical experiments in laboratories for quality or process control or to develop new products or knowledge.

24108 - Atmospheric and Space Scientists - Investigate atmospheric phenomena and interpret meteorological data gathered by surface and air stations, satellites, and radar to prepare reports and forecasts for public and other uses. Include weather analysts and forecasters who work for radio and TV stations and whose functions require the detailed knowledge of a meteorologist.

24111 - Geologists, Geophysicists, and Oceanographers - Geologists: Study composition, structure, and history of the earth's crust; examine rocks, minerals, and fossil remains to identify and determine the sequence of processes affecting the development of the earth; apply knowledge of chemistry, physics, biology, and mathematics to explain these phenomena and to help locate mineral and petroleum deposits and underground water resources; prepare geologic reports and maps; and interpret research data to recommend further study or action. Geophysicists: Study physical aspects of the earth, including the atmosphere and hydrosphere; investigate and measure seismic, gravitational, electrical, thermal, and magnetic forces affecting the earth, utilizing principles of physics, mathematics, and chemistry. Oceanographers: Study topographical features, rock and sediment of the ocean bottom, and physical aspects of oceans, such as density, temperature, and sound.

24199 - All Other Physical Scientists - All other physical scientists not classified separately above.

Life Scientists

24302 - Foresters and Conservation Scientists - Plan, develop, and control environmental factors affecting forests, rangeland, and farmland and their resources for economic and recreational purposes through activities such as researching soil erosion, conducting fire prevention programs, reforestation, and preservation of natural resources.

24305 - Agricultural and Food Scientists - Research problems related to agriculture, animal husbandry, and horticulture, including the development of improved methods of cultivation, the processing, handling, and storing of products, and related activities.

24308 - Biological Scientists - Research problems dealing with life processes. Include Biologists, Biochemists, Biophysicists, Pathologists, Bacteriologists, Toxicologists, and Zoologists. Exclude Medical and Agricultural Scientists.

Physical and Life Science Technicians and Technologists

24502 - Biological, Agricultural, and Food Technicians and Technologists, Except Health - Assist scientists in laboratory and production activities by performing tasks necessary to experiment, test, and develop new and improved methods in production, preservation, and processing of plant and animal life.

24505 - Chemical Technicians and Technologists, Except Health - Conduct chemical and physical laboratory tests to assist scientists in making qualitative and quantitative analyses of solids, liquids, and gaseous materials for purposes such as research and development of new products or processes, quality control, maintenance of environmental standards, and other work involving experimental, theoretical, or practical application of chemistry and related sciences.

24511 - Petroleum Technicians and Technologists - Assist scientists in the use of electrical, sonic, or nuclear measuring instruments in both laboratory and production activities to obtain data indicating potential sources of metallic ore, gas, or petroleum. Analyze mud and drill cuttings to determine petroleum and mineral content and physical characteristics. Chart pressure, temperature, and other characteristics of oil and gas wells, boreholes, or producing wells. Investigate and collect information concerning oil well drilling operations, geological and geophysical prospecting, and land and lease contracts from other oil fields that lead to the possible discovery of new oil fields.

24599 - All Other Physical and Life Science Technicians and Technologists - All other physical and life science technicians and technologists not classified separately above.

Computer, Mathematical, Operations Research, and Related Occupations Computer Scientists and Related Occupations

25102 - Systems Analysts, Electronic Data Processing - Analyze business, scientific, and technical problems for application to electronic data processing systems. Exclude persons working primarily as Engineers, Mathematicians, or Scientists.

25103 - Database Administrators - Coordinate physical changes to computer databases and code, test, and implement the database applying knowledge of database management systems. May design logical and physical databases and coordinate database development as part of a project team.

25104 - Computer Support Specialists - Provide technical assistance and training to computer system users. Investigate and resolve computer software and hardware problems of users. Answer clients' inquiries in person and via telephone concerning the use of computer hardware and software, including printing, word processing, programming languages, electronic mail, and operating systems.

- 25105 Computer Programmers Convert project specifications and statements of problems and procedures to detailed logical flowcharts for coding into computer language. Develop and write computer programs to store, locate, and retrieve specific documents, data, and information.
- 25108 Computer Programmer Aides Assist Computer Programmers or Systems Analysts by performing computer-related tasks such as entering completed programs for conversion to machine instructions, writing simple programs to retrieve data, and other duties to assist in the processing of data or controlling of industrial processes.
- 25199 All Other Computer Scientists All other computer scientists not classified separately above.

Mathematical Scientists and Related Occupations

- 25302 Operations and Systems Researchers and Analysts, Except Computer Conduct analyses of management and operational problems in terms of management information and concepts. Formulate mathematical or simulation models of the problem for solution by computer or other method. May develop and supply time and cost networks such as program evaluation and review techniques.
- 25312 Statisticians Plan surveys and collect, organize, interpret, summarize, and analyze numerical data, applying statistical theory and methods to provide usable information in scientific, business, economic, and other fields. Data derived from surveys may represent either complete enumeration or statistical samples. Include Mathematical Statisticians who are engaged in the development of mathematical theory associated with the application of statistical techniques.
- 25315 Financial Analysts, Statistical Conduct statistical analyses of information affecting investment programs of public or private institutions and private individuals.

Social Scientists and Other Social, Recreational, and Religious Occupations Social Scientists, Including Urban and Regional Planners

- 27102 Economists, Including Market Research Analysts Economists: Conduct research, prepare reports, and formulate plans to aid in solution of economic problems arising from production and distribution of goods and services. Market Research Analysts: Research market conditions in local, regional, or national area to determine potential sales of a product or service; examine and analyze statistical data on past sales and wholesale or retail trade trends to forecast future sales trends.
- 27105 Urban and Regional Planners Develop comprehensive plans and programs for use of land and physical facilities of cities, counties, and metropolitan areas.
- 27108 Psychologists Collect, interpret, and apply scientific data relating to human behavior and mental processes. Activities are in either applied fields of psychology or in basic science fields and research. Include occupations in personnel research and in administration of testing and counseling programs. Exclude Psychiatrists.

27199 - All Other Social Scientists - All other social scientists not classified separately above.

Other Social Science Related Occupations

- 27302 Social Workers, Medical and Psychiatric Counsel and aid individuals and families with problems that may arise during or following the recovery from physical or mental illness by providing supportive services designed to help the persons understand, accept, and follow medical recommendations. Include Chemical Dependency Counselors.
- 27305 Social Workers, Except Medical and Psychiatric Counsel and aid individuals and families requiring social service assistance. Include Community Organization Social Workers who plan, organize, and work with community groups to solve problems. Exclude Chemical Dependency Social Workers.
- 27307 Residential Counselors Coordinate activities for residents of care and treatment institutions, boarding schools, college fraternities or sororities, children homes, or similar establishments. Work includes developing or assisting in the development of program plans for individuals, maintaining household records, and assigning rooms. Counsel residents in identifying and resolving social or other problems. Order supplies and determine need for maintenance, repairs, and furnishings.
- 27308 Human Services Workers Assist Social Group Workers and Caseworkers with developing, organizing, and conducting programs to prevent and resolve problems relevant to substance abuse and human relationships. Aid families and clients in obtaining information on the use of social and community services. May recommend additional services. Exclude Residential Counselors and Psychiatric Technicians.
- 27311 Recreation Workers Conduct recreation activities with groups in public, private, or volunteer agencies or recreation facilities. Organize and promote activities such as arts and crafts, sports, games, music, dramatics, social recreation, camping, and hobbies, taking into account the needs and interests of individual members.

Religious Workers

- 27502 Clergy Conduct religious worship and perform other spiritual functions associated with beliefs and practices of religious faith or denomination as delegated by ordinance, license, or other authorization. Provide spiritual and moral guidance and assistance to members.
- 27505 Directors, Religious Activities and Education Direct and coordinate activities of a denominational group to meet religious needs of students. Plan, organize, and direct church school programs designed to promote religious education among church membership. Provide counseling and guidance relative to marital, health, financial, and religious problems.

Lawyers and Related Occupations

28102 - Judges and Magistrates - Judges: Arbitrate, advise, and administer justice in a court of law. Sentence defendant in criminal cases according to statutes of state or federal government. May determine liability of defendant in

civil cases. Magistrates: Adjudicate criminal cases not involving penitentiary sentences and civil cases concerning damages below a sum specified by state law. May issue marriage licenses and perform wedding ceremonies.

28105 - Adjudicators, Hearings Officers, and Judicial Reviewers - Conduct hearings to review and decide claims filed by the government against individuals or organizations, or individual eligibility issues concerning social programs, disability, or unemployment benefits. Determine the existence and the amount of liability; recommend the acceptance or rejection of claims, or compromise settlements according to laws, regulations, policies, and precedent decisions. Confer with persons or organizations involved and prepare written decisions.

28108 - Lawyers - Conduct criminal and civil lawsuits, draw up legal documents, advise clients as to legal rights, and practice other phases of law. May represent client in court or before quasi-judicial or administrative agencies of government. May specialize in a single area of law, such as patent law, corporate law, or criminal law.

Legal Assistants and Technicians, Except Clerical

28302 - Law Clerks - Research legal data for brief or argument based on statutory law or decisions. Search for and study legal records and documents to obtain data applicable to case under consideration. Prepare rough drafts of briefs or arguments. File pleadings for firm with court clerk. Serve copies of pleading on opposing counsel. Prepare affidavits of documents and keep document file and correspondence of cases.

28305 - Paralegal Personnel - Assist lawyers by researching law, investigating facts, and preparing legal documents. May gather research data for use as evidence to formulate defense or to initiate legal action. These workers are career professionals, usually having either a four-year college degree or a degree from an institute specializing in the paralegal profession.

28308 - Title Searchers - Compile list of mortgages, deeds, contracts, judgments, ind other instruments (chain) pertaining to title by searching public and private ecords of real estate or title insurance company.

28311 - Title Examiners and Abstractors - Title Examiners: Search public records and examine titles to determine legal condition of property title. Copy or summarize (abstracts) recorded documents which affect condition of title to property (e.g., mortgages, trust deeds, and contracts). May prepare and issue policy that guarantees legality of title. Abstractors: Summarize pertinent legal or insurance details or sections of statutes or case law from reference books for purpose of examination, proof, or ready reference. Search out titles to determine if title deed is correct.

28399 - All Other Legal Assistants and Technicians, Except Clerical - All other legal assistants and technicians not classified separately above.

Teachers, Educators, Librarians, and Related Occupations

Teachers - College, Junior College, University, Professional School, or

Technical Institute

31114 - Nursing Instructors, Postsecondary - Demonstrate and teach patient care in classroom and clinical units to nursing students. Instruct students in principles and application of physical, biological, and psychological subjects related to nursing. Conduct and supervise laboratory experiments. Issue assignments, direct seminars, etc. Participate in planning curriculum with medical and nursing personnel and in evaluating and improving teaching and nursing practices. May specialize in specific subjects, such as anatomy or chemistry, or in a type of nursing activity, such as nursing of surgical patients.

31209 - All Other Physical Sciences Teachers, Postsecondary - Teach courses in the physical sciences, except chemistry and physics. Include teachers of subjects such as astronomy, atmospheric sciences, space sciences, and geology.

31214 - English Language and Literature Teachers, Postsecondary - Teach courses in English language and literature. Include teachers of linguistics, and of comparative literature taught in English.

31218 - Art, Drama, and Music Teachers, Postsecondary - Teach courses in visual and performing arts, such as: cinema, dance, drama, music, painting, sculpture, and theater.

31224 - Mathematical Sciences Teachers, Postsecondary - Teach courses in mathematics, applied mathematics, statistics, and actuarial science.

31226 - Computer Science Teachers, Postsecondary - Teach courses in computer and information science, including computer engineering, computer programming, and information systems theory.

31231 - Anthropology and Sociology Teachers, Postsecondary - Teach courses in anthropology and sociology.

31235 - History Teachers, Postsecondary - Teach courses in human history and historiography.

31242 - Business Teachers, Postsecondary - Teach courses in business administration and management, such as: accounting, finance, human resources, labor relations, marketing, and operations research.

31247 - Social Work Teachers, Postsecondary - Teach courses in social work.

31252 - Education Teachers, Postsecondary - Teach courses pertaining to education, such as: counseling, curriculum, guidance, instruction, teacher education, and teaching English as a second language.

31299 - All Other Postsecondary Teachers - All other postsecondary teachers not elsewhere classified.

Other Teachers and Instructors

- 31303 Teachers, Preschool Instruct children (normally up to 5 years of age) in activities designed to promote social, physical, and intellectual growth needed for primary school in preschool, day care center, or other child development facility. May be required to hold state certification.
- 31304 Teachers, Kindergarten Teach elemental natural and social science, personal hygiene, music, art, and literature to children from 4 to 6 years old. Promote physical, mental, and social development. May be required to hold state certification.
- 31305 Teachers, Elementary School Teach elementary pupils in public or private schools basic academic, social, and other formative skills. Exclude special education teachers of the handicapped.
- 31308 Teachers, Secondary School Instruct students in public or private schools in one or more subjects, such as English, mathematics, or social studies. May be designated according to subject matter specialty, such as Typing Instructors, Commercial Teachers, or English Teachers. Include vocational high school teachers.
- 31311 Teachers, Special Education Teach elementary and secondary school subjects to educationally and physically handicapped students. Include teachers who specialize and work with audibly and visually handicapped students and those who teach basic academic and life processes skills to the mentally retarded.
- 31314 Teachers and Instructors, Vocational Education and Training Teach or instruct vocational and/or occupational subjects at the postsecondary level (but at less than the baccalaureate) to students who have graduated or left high school. Subjects include business, secretarial science, data processing, trades, and practical nursing. Include correspondence school instructors, industrial, commercial and government training instructors, and adult education teachers and instructors who prepare persons to operate industrial machinery and equipment and transportation and communications equipment. Teaching may take place in public or private schools whose primary business is education or in a school associated with an organization whose primary business is other than education.
- 31317 Instructors, Nonvocational Education Teach or instruct out-of-school youths and adults in courses other than those that normally lead to an occupational objective and are less than the baccalaureate level. Subjects may include self-improvement and nonvocational courses such as Americanization, basic education, art, drama, music, bridge, homemaking, stock market analysis, languages, modeling, flying, dancing, and automobile driving. Teaching may take place in public or private schools or in an organization whose primary business is other than education.
- 31321 Instructors and Coaches, Sports and Physical Training Instruct or coach groups or individuals in the fundamentals of sports. Demonstrate techniques and methods of participation. Observe and inform participants of corrective measures necessary to improve their skills. Those required to hold teaching degrees should be reported in the appropriate teaching category.

31399 - All Other Teachers and Instructors - All other teachers and instructors not classified separately above.

Librarians, Archivists, Curators, and Other Education Related Occupations

- 31502 Librarians, Professional Administer libraries and perform related library services. Includes selecting, acquiring, cataloging, classifying, circulating, and maintaining library materials; furnishing reference, bibliographical, and reader's advisory services. May select music, films, or other audiovisual material for programs.
- 31505 Technical Assistants, Library Assist librarians by furnishing information on library sciences, facilities, and rules; by assisting readers in the use of card catalogs and indexes to locate books and other materials; and by answering questions that require only brief consultation of standard reference. May catalog books or train and supervise clerical staff.
- 31511 Curators, Archivists, Museum Technicians, and Conservators Curators: Administer affairs of museum and conduct scientific research programs. Direct instructional, research, and public service activities of institution. Archivists: Appraise, edit, and direct safekeeping of permanent records and historically valuable documents. Participate in research activities based on archival materials. Museum Technicians and Conservators: Prepare specimens such as fossils, skeletal parts, lace, and textiles for museum collection and exhibits. May restore documents or install, arrange, and exhibit materials.

Duties include patching broken or eroded pavement, and erecting and repairing guardrails, highway markers, and snow fences using a posthole digger, shovel, axe, saw, hammer and nails, or power tools. May also clear brush or plant trees along rights-of-way.
- 87714 Rail-Track Laying and Maintenance Equipment Operators Lay, repair, and maintain track for standard or narrow-gauge railroad equipment used in regular railroad service or in plant yards, quarries, sand and gravel pits, and mines. Include Ballast Cleaning Machine Operators and Road Bed Tamping Machine Operators.

Other Construction Trades Occupations

- 87802 Insulation Workers Cover and line structures with insulation using saws, knives, rasps, trowels, and other tools and implements. May also specialize in providing blown-in insulation.
- 87803 Hazardous Materials Removal Workers Remove, pack, transport, and/or dispose of hazardous materials, including asbestos, waste fuel, contaminated soil, etc. Specialized training and certification in hazardous materials handling and/or a confined entry permit are generally required.
- 87805 Sheet Metal Duct Installers Install prefabricated sheet metal ducts used for heating, air conditioning, or other purposes in buildings and similar structures.
- 87808 Roofers Cover roofs of structures with slate, asphalt, aluminum, wood, and related materials using brushes, knives, punches, hammers, and other tools. May spray roofs, sidings, and walls with material to bind, seal, insulate, or soundproof sections of structures.
- 87811 Glaziers Install glass in windows, skylights, storefronts, and display cases, or on surfaces such as building fronts, interior walls, ceilings, and tabletops. Exclude Glaziers who work primarily on production lines.
- 87814 Structural Metal Workers Raise, place, and unite girders, columns, and other structural steel members to form completed structures or structural frameworks. Include workers who erect metal storage tanks and assemble prefabricated metal buildings. Exclude reinforcing metal workers.
- 87817 Fence Erectors Erect and repair metal and wooden fences and fence gates around highways, industrial establishments, residences, or farms, using hand and power tools.

87899 - All Other Construction Trades Workers - All other construction trades workers not classified separately above.

Extractive and Related Occupations, Including Blasters

- 87902 Earth Drillers, Except Oil and Gas Operate a variety of drills to tap subsurface water and salt deposits, to remove core samples during mineral exploration or soil testing, and to facilitate the use of explosives in mining or construction. Include Core, Well, and Foundation Drill Operators and Horizontal and Earth Boring Machine Operators. Exclude Oil Well Drillers.
- 87905 Blasters and Explosives Workers Place explosives in holes or other spots and detonate the explosives to demolish structures or to loosen, remove, or displace earth, rock, or other materials. Include Tier-Detonator Blasters, Perforator Operators, and Seismograph Shooters.
- 87911 Rotary Drill Operators, Oil and Gas Extraction Set up or operate a variety of drills to remove petroleum products from the earth and to remove core samples for testing during oil and gas exploration. Include Core and Rotary Drillers and Well and Prospecting Drillers.
- 87914 Derrick Operators, Oil and Gas Extraction Rig derrick equipment and operate pumps to circulate mud through drill hole.
- 87917 Service Unit Operators Operate equipment to increase oil flow from producing wells or to remove stuck pipe, casing, tools, or other obstructions from drilling wells. Include Fishing-Tool Technicians.
- 87921 Roustabouts Perform a variety of assigned tasks in or around an oil field such as assembling or repairing equipment, digging drainage trenches, and loading/unloading trucks.
- 87999- All Other Construction and Extractive Workers, Except Helpers All other construction and extractive workers, except helpers, not classified separately above.

Precision Production Occupations

Precision Metal Occupations

- 89108 Machinists Set up and operate variety of machine tools. Fit and assemble parts to make or repair machine tools and maintain industrial machines, applying knowledge of mechanics, shop mathematics, metal properties, layout, and machining procedures. Study specifications, such as blueprints, sketch, or description of part to be replaced, and plan sequence of operations.
- 89111 Tool Grinders, Filers, Sharpeners, and Other Precision Grinders Perform such operations as precision smoothing, sharpening, polishing, and grinding of metal objects by the wearing action of abrasive materials or machine files. Include Tool, Cylinder, and Card Grinders and Grinder Operators, Saw Filers, and Filer-Finishers.
- 89123 Jewelers and Silversmiths Jewelers: Fabricate, adjust, or repair jewelry. Silversmiths: Design, assemble, decorate, or repair silver articles. May specialize in one or more areas of the jewelry field, such as repairing, selling, or appraising. Exclude workers who perform a specialized operation such as fancy wire drawing.

89132 - Sheet Metal Workers - Fabricate, assemble, install, and repair sheet metal products and equipment, such as control boxes, drainpipes, and furnace casings. Work may involve any of the following: Set up and operate fabricating machines to cut, bend, and straighten sheet metal; shape metal over anvils, blocks, or forms using hammer; operate soldering and welding equipment to join sheet metal parts; inspect, assemble, and smooth seams and joints of burred surfaces.

89135 - Boilermakers - Construct, assemble, maintain, and repair stationary steam boilers and boiler house auxiliaries. Align structures or plate sections to assemble boiler frame tanks or vats, following blueprints. Work involves use of hand and power tools, plumb bobs, levels, wedges, dogs, or turnbuckles. Assist in testing assembled vessels. Direct cleaning of boilers and boiler furnaces. Inspect and repair boiler fittings, such as safety valves, regulators, automatic-control mechanisms, water columns, and auxiliary machines.

89199 - All Other Precision Metal Workers - All other precision metal workers not classified separately above.

Precision Wood Occupations

89308 - Wood Machinists - Set up and operate a variety of woodworking machines to surface, cut, and shape lumber, and to fabricate parts for wood products, such as door and window frames, furniture, and sashes, according to specifications. Exclude workers primarily concerned with one or a limited number of machine phases and report them according to their specialty.

89311 - Cabinetmakers and Bench Carpenters - Cut, shape, and assemble wooden articles, such as store fixtures, office equipment, cabinets, and high grade furniture. Set up and operate variety of machines, such as power saws, jointers, mortisers, tenoners, molders, and shapers, to cut and shape parts from wood stock. Exclude workers primarily concerned with one or a limited number of machine phases and report them according to their specialty.

89314 - Furniture Finishers - Shape, finish, and refinish damaged, worn, or used furniture or new high-grade furniture to specified color or finish, utilizing knowledge of wood properties, finishes, and furniture style.

Precision Textile, Apparel, and Furnishings Occupations

89502 - Fabric and Apparel Patternmakers and Layout Workers - Draw and construct sets of precision master patterns or layouts. Mark and cut fabrics and apparel according to blueprints or specifications.

89505 - Custom Tailors and Sewers - Design and make tailored garments, applying knowledge of garment design, construction, styling, and fabric. Alter, repair, or fit made-to-measure or ready-to-wear garments, sewing by hand or machine.

89508 - Upholsterers - Make, repair, and replace upholstery for household furniture or transportation vehicles, using knowledge of fabrics and methods of upholstery. Include workers in both manufacturing and nonmanufacturing industries. Exclude workers who perform a specialized operation such as Sewing Machine Operators, Assemblers, and Hand Cutters and Trimmers.

Precision Printing Occupations

89706 - Paste-Up Workers - Arrange and mount typeset material and illustrations into pasteup for printing reproduction, based on artist's or editor's layout.

89707 - Electronic Pagination System Operators - Using a computer screen, call up type and art elements from computer memory and position them into a completed page, using knowledge of typestyles and size and composition patterns. The composited page is then transmitted for production into film or directly into plates.

Precision Food Occupations

89802 - Slaughterers and Butchers - Work in a slaughtering or meatpacking establishment to prepare meat for sale by performing precision tasks such as stunning, skinning and trimming; cutting standard cuts of meat for marketing; cleaning and salting hides; making sausage; preparing meats for salting; and wrapping meats.

Other Precision Occupations

89905 - Precision Molders, Shapers, Casters, and Carvers, Except Jewelry and Foundry - Mold, shape, cast, or carve products consisting of clay, glass, plaster, concrete, and stone, or combinations of materials into semifinished or finished products.

89911 - Precision Detail Design Decorators and Painters - Design or decorate articles such as jewelry, furniture, glassware, pottery, or toys with paints, lacquers, enamels, shellac, or gilt. Types of processes include painting, carving, printing, drawing, artistic lettering, decorative screen making, advertising layout, and detail design of forms. Include Screen or Stencil Printers and Setters, Layout Formers, Gilders, Luster Applicators, and Tile Decorators. Exclude professional Artists and Designers and workers concerned with developing, coloring, and retouching photographs.

89914 - Precision Photographic Process Workers - Perform precision work involved in photographic processing, such as retouching photographic negatives and prints to stress specific features or identifying characteristics of subjects. Restore damaged and faded photographs. Color or shade drawings to create photographic likenesses using an airbrush. May also color photographs using oil colors, to produce natural, lifelike appearances according to specifications.

89921 – Precision Dental Laboratory Technicians - Construct and repair full or partial dentures or dental appliances or apparatus, following prescriptions or specifications of Dentists or Orthodontists. May also provide analytical and diagnostic services. Include Dental Ceramists, Crown and Bridge Technicians, and Orthodontic Technicians. Exclude Assistants, Bite-Block Makers, Opaquers, and Denture and Coiler Packers.

89999 - All Other Precision Workers - All other precision workers not classified separately above.

Machine Setters, Set-Up Operators, Operators, and Tenders
Machine Tool Cutting Setters, Operators, and Related Occupations - Metal
and Plastic

91117 - Machine Tool Cutting Operators and Tenders, Metal and Plastic - Operate or tend one type of cutting machine tool which has previously been set up. Exclude workers who operate or tend more than one type of cutting machine. Types of cutting machine tools include: Sawing Machines, Grinding Machines, Lathe and Turning Machines, Buffing and Polishing Machines, Drilling and Boring Machines, Lapping and Honing Machines, Milling and Planing Machines.

Machine Forming Setters, Operators, and Related Occupations - Metal and Plastic

91321 - Machine Forming Operators and Tenders, Metal and Plastic - Operate or tend one type of forming machine which has previously been set up. Exclude workers who operate more than one type of forming machine. Types of forming machines include: Punching Machines, Rolling Machines, Shear and Slitter Machines, Press and Press Brake Machines, Extruding and Drawing Machines, Forging Machines.

Metal Fabricating and Related Machine Setters, Operators, and Related Occupations

91705 - Welding Machine Operators and Tenders - Operate or tend welding machines or robots that join or bond together components to fabricate metal products and assemblies, according to specifications and blueprints.

91714 - Meral Fabricators, Structural Metal Products - Fabricate and assemble structural metal products, such as frameworks or shells for machinery, ovens, tanks, and stacks, and metal parts for buildings and bridges, according to job order or blueprints.

Metal and Plastic Processing Machine Setters, Operators, and Related Occupations

91905 - Plastic Molding and Casting Machine Operators and Tenders - Operate or tend plastic molding machines, such as compression or injection molding machines, to mold, form, or cast thermoplastic materials to specified shape.

Other Metal and Plastic Machine Setters, Operators, and Related Occupations

92198 - All Other Metal and Plastic (Cutting, Forming, Fabricating, or Processing) Machine Operators and Tenders - All other metal and plastic machine operators and tenders not classified separately above.

Woodworking Machine Setters, Operators, and Related Occupations

92302 - Sawing Machine Setters and Set-up Operators - Set up or set up and operate wood-sawing machines. Examine blueprints, drawings, work orders, and patterns to determine size and shape of items to be sawed, sawing machines to set up, and sequence of sawing operations.

92305 - Head Sawyers - Operate head saws and feed carriages to saw logs into rough cants or boards from heading bolts.

92308 - Sawing Machine Operators and Tenders - Operate or tend wood-sawing machines, such as circular saws, band saws, multiple blade sawing machines, scroll saws, ripsaws, equalizer saws, power saws, and crozer machines. Duties include: sawing logs to specifications; cutting lumber to specified dimensions; sawing curved or irregular designs; trimming edges and removing defects from lumber; or cutting grooves, bevel, and miter according to specifications or work orders.

92311 - Woodworking Machine Setters and Set-up Operators, Except Sawing - Set up or set up and operate woodworking machines, such as lathes, drill presses, sanders, shapers, and planing machines, to perform woodworking operations. Exclude Sawing Machine Setters and Set-up Operators.

92314 - Woodworking Machine Operators and Tenders, Except Sawing - Operate or tend woodworking machines, such as drill presses, lathes, shapers, routers, sanders, planers, and wood-nailing machines to perform woodworking operations. Exclude Sawyers.

Printing, Binding, and Related Occupations

92512 - Offset Lithographic Press Setters and Set-up Operators - Set up or set up and operate offset printing press, either sheet or web fed, to print single and multicolor copy from lithographic plates. Examine job order to determine press operating time, quantity to be printed, and stock specifications.

92524 - Screen Printing Machine Setters and Set-up Operators - Set up or set up and operate screen printing machines to print designs onto articles and materials, such as glass or plasticware, cloth, and paper.

92525 - Bindery Machine Setters and Set-up Operators - Set up or set up and operate machines that perform some or all of the following functions in order to produce books, magazines, pamphlets, catalogs, and other printed materials: gathering, folding, cutting, stitching, rounding and backing, supering, casing-in, lining, pressing, and trimming.

92541 - Typesetting and Composing Machine Operators and Tenders - Operate or tend typesetting and composing equipment, such as phototypesetters, linotype or monotype keyboard machines, photocomposers, linocasters, and photoletterers. Exclude Data Entry Keyers of computerized systems.

92543 - Printing Press Machine Operators and Tenders - Operate or tend various types of printing machines, such as offset lithographic presses, letter or letterset presses, flexographic or gravure presses, to produce print on paper or other materials such as plastic, cloth, or rubber.

92546 - Bindery Machine Operators and Tenders - Operate or tend binding machines that round, back, case, line stitch, press, fold, trim, or perform other binding operations on books and related articles. Exclude Hand Bindery Workers and Machine Feeders and Offbearers.

Textile and Related Setters, Operators, and Related Occupations

- 92717 Sewing Machine Operators, Garment Operate or tend sewing machines to perform garment sewing operations, such as joining, reinforcing, or decorating garments or garment parts. Include sewing machine operators and tenders who perform specialized or automatic sewing machine functions, such as buttonhole making or tacking.
- 92721 Sewing Machine Operators, Nongarment Operate or tend sewing machines to join together, reinforce, decorate, or perform related sewing operations in the manufacture of nongarment products, such as upholstery, draperies, linens, carpets, and mattresses.
- 92726 Laundry and Dry-Cleaning Machine Operators and Tenders, Except Pressing Operate or tend washing or dry-cleaning machines to wash or dry-clean commercial, industrial, or household articles, such as cloth garments, suede, leather, furs, blankets, draperies, fine linens, rugs, and carpets.
- 92728 Pressing Machine Operators and Tenders, Textile, Garment, and Related Materials Operate or tend pressing machines, such as hot-head pressing, steam pressing, automatic pressing, ironing, plunger pressing, and hydraulic pressing machines, to press and shape articles such as leather, fur, and cloth garments, drapes, slipcovers, handkerchiefs, and millinery. Exclude Delicate Fabric (Precision) Pressers.
- Other Machine Setters, Set-Up Operators, Operators, and Tenders-Except Metal and Plastic
- 92905 Motion Picture Projectionists Set up and operate motion picture projection and sound reproduction equipment.
- 92908 Photographic Processing Machine Operators and Tenders Operate or tend photographic processing machines, such as motion picture film printing machines, photographic printing machines, film developing machines, and mounting presses, according to job specifications.
- 92923 Furnace, Kiln, Oven, Drier, or Kettle Operators and Tenders Operate or tend heating equipment other than basic metal or plastic processing equipment. Oven Operators or Tenders: Bake fiberglass or painted products, fuse glass or enamel to metal products, carbonize coal, or cure rubber or other products. Furnace Operators or Tenders: Anneal glass, roast sulfur, convert chemicals, or process petroleum. Kettle Operators and Tenders: Boil soap, or melt antimony or asphalt materials. Drier Operators and Tenders: Remove moisture from paper, chemicals, ore, clay products, or slurry. Kiln Operators and Tenders: Heat minerals, dry lumber, fire greenware, anneal glassware, or bake clay products.
- 92926 Boiler Operators and Tenders, Low Pressure Operate or tend low pressure stationary steam boilers and auxiliary steam equipment, such as pumps, compressors and air conditioning equipment, to supply steam heat for office buildings, apartment houses, or industrial establishments; to maintain steam at specified pressure aboard marine vessels; or to generate and supply compressed air for operation of pneumatic tools, hoists, and air lances.

- 92944 Cutting and Slicing Machine Operators and Tenders Operate or tend machines to cut or slice any of a wide variety of products or materials, such as tobacco, food, paper, roofing slate, glass, stone, rubber, cork, and insulating material. Exclude Metal, Wood, and Plastic Sawing Machine Operators and Tenders, and Textile Cutting Machine Operators and Tenders.
- 92947 Painters, Transportation Equipment Operate or tend painting machines to paint surfaces of transportation equipment, such as automobiles, buses, trucks, boats, and airplanes.
- 92953 Coating, Painting, and Spraying Machine Operators and Tenders Coating Machine Operators or Tenders: Operate or tend machines to coat any of a wide variety of items: Coating food products with sugar, chocolate, or butter; coat paper and paper products with chemical solutions, wax, or glazes; or coat fabric with rubber or plastic. Painting and Spraying Machine Operators and Tenders: Operate or tend machines to spray or paint decorative, protective, or other coating or finish, such as adhesive, lacquer, paint, stain, latex, preservative, oil, or other solutions. May apply coating or finish to any of a wide variety of items or materials, such as wood and wood products, ceramics, and glass. Include workers who apply coating or finish to materials preparatory to further processing or to consumer use.
- 92956 Cementing and Gluing Machine Operators and Tenders Operate or tend cementing and gluing machines to join together items to form a completed product or to form an article for further processing. Processes include: Joining veneer sheets into plywood; gluing paper to glass wool, cardboard or paper; joining rubber and rubberized fabric parts, plastic, simulated leather, and other materials.
- 92958 Cleaning, Washing, and Pickling Equipment Operators and Tenders Operate or tend machines to wash or clean items, such as barrels or kegs, glass products, tinplate surfaces, dried fruit, pulp, animal stock, coal, manufactured articles, plastic, or rubber, to remove impurities preparatory to further processing.
- 92962 Separating, Filtering, Clarifying, Precipitating, and Still Machine Operators and Tenders Operate or tend machines such as filter presses, shaker screens, centrifuges, condenser tubes, precipitator tanks, fermenting tanks, evaporating tanks, scrubbing towers and batch stills. These machines extract, sort, or separate liquids, gases, or solid materials from other materials in order to recover a refined product or material. Exclude workers who operate equipment to control chemical changes or reactions.
- 92965 Crushing, Grinding, Mixing, and Blending Machine Operators and Tenders Crushing, Grinding, and Polishing Machine Operators and Tenders: Operate or tend machines to crush or grind any of a wide variety of materials, such as coal, glass, plastic, dried fruit, grain, stone, chemicals, food, or rubber; or operate or tend machines that buff and polish materials or products, such as stone, glass, slate, plastic or metal trim, bowling balls, or cyeglasses. Mixing and Blending Machine Operators and Tenders: Operate or tend machines to mix or blend any of a wide variety of materials, such as spices, dough batter, tobacco, fruit juices, chemicals, livestock feed, food products, color pigments, or explosive ingredients.

92968 - Extruding, Forming, Pressing, and Compacting Machine Setters and Set-Up Operators - Set up or set up and operate machines, such as glass forming machines, plodder machines, and tuber machines, to manufacture any of a wide variety of products, such as soap bars, formed rubber, glassware, food, brick, and tile, by means of extruding, compressing, or compacting.

92971 - Extruding, Forming, Pressing, and Compacting Machine Operators and Tenders - Operato or tend machines to shape and form any of a wide variety of manufactured products, such as glass bulbs, molded food and candy, rubber goods, clay products, wax products, tobacco plugs, cosmetics, or paper products, by means of extruding, compressing or compacting.

92974 - Packaging and Filling Machine Operators and Tenders - Operate or tend machines, such as filling machines, casing-running machines, ham-rolling machines, preservative-filling machines, baling machines, wrapping machines, and stuffing machines, to prepare industrial or consumer products, such as gas cylinders, meat and other food products, tobacco, insulation, ammunition, stuffed toys, and athletic equipment for storage or shipment.

92998 - All Other Machine Operators and Tenders - All other machine operators and tenders not classified separately above.

Hand Working Occupations, Including Assemblers and Fabricators Precision Assemblers

93114 - Electrical and Electronic Equipment Assemblers, Precision - Assemble or modify prototypes or final assemblies of electrical or electronic equipment, such as missile control systems, radio and test equipment, computers, numerical control machine tools, radar, sonar, telemetering systems, or appliances. Include workers who primarily assemble electrical systems for machinery.

Other Hand Workers, Including Assemblers and Fabricators

93914 - Welders and Cutters - Use hand-welding and flame-cutting equipment, such as are welders, gas welders, and gas torches, to weld together metal components of such products as pipelines, automobiles, boilers, and ships; to join together components of fabricated sheet metal assemblies; or to cut, trim, or scarf metal objects to dimensions, as specified by layout, work orders, or blueprints.

93921 - Pressers, Hand - Press articles to remove wrinkles, flatten seams, and give shape by using hand iron. Articles pressed include: Drapes, knit goods, millinery parts, parachutes, garments, slipcovers, and textiles such as lace, rayon, and silk. May block (shape) knitted garments after cleaning. May press leather goods.

93926 - Cutters and Trimmers, Hand - Use hand tools or hand-held power tools to cut and trim a variety of manufactured items, such as stone, glass, or rubber. Exclude Portable Machine Cutters who use patterns to cut multiple layers of fabric.

93938 - Meat, Poultry, and Fish Cutters and Trimmers, Hand - Use hand tools to perform a wide variety of food cutting and trimming tasks that require skills less than that of the precision level. Include Meat Boners, Carcass Splitters, Poultry Eviscerators, Fish Cleaners and Butchers, Skinners, and Stickers.

93941 - Metal Pourers and Casters, Basic Shapes - Operate hand-controlled mechanisms adjunctive to specialized machinery and equipment to pour and regulate the flow of molten metal into molds for producing eastings or ingots of specific quality and size. Include Steel Pourers, Casters, and Ladle and Metal Pourers.

93947 - Painting, Coating, and Decorating Workers, Hand - Paint, coat, and decorate, using hand tools or hand-held power tools, a wide variety of manufactured items, such as furniture, glass and plateware, lamps, jewelry, books, or leather products. Include Inlayers, Stainers, Enamelers, and Decal Appliers.

93953 - Grinding and Polishing Workers, Hand - Grind and polish, using hand tools or hand-held power tools, a wide variety of metal, stone, clay, plastic, and glass objects or parts. Include Grinders and Chippers, Polishers and Buffers, Metal Sanders and Finishers, Glass Grinders and Polishers, and Plastic Buffers and Finishers. Exclude precision-level workers.

93956 - Assemblers and Fabricators, Except Machine, Electrical, Electronic, and Precision - Assemble or fit together parts to form complete units or subassemblies at a bench, conveyor line, or on the floor. Work may involve the use of hand tools, power tools, and special equipment in order to carry out fitting and assembly operations. Include assemblers whose duties are of a non-precision nature. Exclude electrical, electronic, machine, and precision assemblers, and workers who perform specialized operations exclusively as a part of assembly operations, such as riveting, welding, soldering, machining, or sawing.

93999 - All Other Hand Workers - All other hand workers not classified separately above.

Plant and System Occupations

95002 - Water and Liquid Waste Treatment Plant and System Operators - Operate or control an entire process or system of machines, often through the use of panelboards, control boards, or semiautomatic equipment, to transfer or treat water and/or liquid waste.

95017 - Gaugers - Gauge and test oil in storage tanks. Regulate flow of oil into pipelines at wells, tank farms, refineries, and marine and rail terminals, following prescribed standards and regulations.

95023 - Auxiliary Equipment Operators, Power - Control and maintain auxiliary equipment, such as pumps, fans, compressors, condensers, feedwater heaters, filters, and chlorinators, that supply water, fuel, lubricants, air, and auxiliary power for turbines, generators, boilers, and other power-generating plant facilities.

95028 - Power Distributors and Dispatchers - Coordinate, regulate, or distribute electricity or steam in generating stations and substations, and over electric power lines. May work for utility company or in a large industrial establishment. May spend some time generating power.

95032 - Stationary Engineers - Operate and maintain stationary engines and mechanical equipment to provide utilities for buildings or industrial processes. Operate equipment such as steam engines, generators, motors, turbines, and steam boilers.

95099 - All Other Plant and System Operators - All other plant and system operators not classified separately above.

Transportation and Material-Moving Machine and Vehicle Operators Motor Vehicle Operators

- 97102 Truck Drivers, Heavy or Tractor-Trailer Drive a tractor-trailer combination or a truck with a capacity of at least 3 tons, to transport and deliver goods, livestock, or materials in liquid, loose or packaged form. May be required to unload truck.
- 97105 Truck Drivers, Light, Include Delivery and Route Workers Drive a truck, van, or automobile with a capacity under 3 tons. May drive light truck to deliver or pick up merchandise. May load and unload truck.
- 97108 Bus Drivers, Except School Drive bus, transporting passengers over specified routes to local or distant points according to a time schedule. Assist passengers with baggage. Collect tickets or cash fares.
- 97111 Bus Drivers, School Transport students between pickup points and school. Maintain order during trip and adhere to safety rules when loading and unloading pupils.
- 97114 Taxi Drivers and Chauffeurs Drive automobiles, limousines, custombuilt sedans, or hearses to transport passengers or cargo. May drive automobiles for delivery. Exclude Ambulance Drivers and Bus Drivers.
- 97117 Driver/Sales Workers Drive truck or other vehicle over established routes to: Deliver and sell goods, such as food products; pick up and deliver items, such as laundry; or refill and collect coins from vending machines. Include Newspaper Delivery Drivers.
- 97199 All Other Motor Vehicle Operators All other motor vehicle operators not classified separately above.

Rail Transportation Occupations

- 97305 Locomotive Engineers Drive electric, diesel-electric, steam, or gasturbine-electric locomotives to transport passengers or freight. Interpret train orders, block or semaphore signals, and railroad rules and regulations.
- 97308 Rail Yard Engineers, Dinkey Operators, and Hostlers Drive switching or other locomotive or dinkey engines within railroad yard, industrial plant, quarry, construction project, or similar location.

Air Transportation Occupations

97702 - Aircraft Pilots and Flight Engineers - Pilot and navigate flight of private or commercial aircraft for the transportation of passengers, freight, mail, or for other purposes. Must be federally licensed. Include workers concerned with flight operations and maintenance when a pilot's or flight engineer's license is required. Include Test Pilots, Helicopter Pilots, and pilots who accompany other pilots to periodically test and review proficiency.

Other Transportation and Related Occupations

97805 - Service Station Attendants - Service automobiles, buses, trucks, boats, and other automotive or marine vehicles with fuel, lubricants, and accessories. Collect payment for services and supplies. May lubricate vehicle, change motor oil, install antifreeze, or replace lights or other accessories such as windshield wiper blades or fan belts. May repair or replace tires.

97808 - Parking Lot Attendants - Park autos or issue tickets for customers in a parking lot or garage.

97899 - All Other Transportation and Related Workers - All other transportation and related workers not classified separately above.

Material Moving Equipment Operators

- 97911 Wellhead Pumpers Operate power pumps and auxiliary equipment to produce artificial flow of oil or gas from wells in oil field.
- 97921 Gas Compressor Operators Operate steam or internal combustion engines to transmit, compress, or recover gases, such as butane, nitrogen, hydrogen, and natural gas, in various production processes.
- 97923 Excavating and Loading Machine Operators Operate or tend machinery equipped with scoops, shovels, or buckets, to excavate and load loose materials. Exclude Dredge and Dragline Operators.
- 97926 Dragline Operators Operate power-driven cranc equipment with dragline bucket to excavate or move sand, gravel, mud, or other materials.
- 97938 Grader, Bulldozer, and Scraper Operators Operate machine or vehicle equipped with blades to remove, distribute, level, or grade earth. Exclude Paving, Surfacing, and Tamping Equipment Operators.
- 97944 Crane and Tower Operators Operate mechanical boom and cable or tower and cable equipment to lift and move materials, machines, or products in many directions. Exclude Dragline Operators.
- 97947 Industrial Truck and Tractor Operators Operate gasoline or electric-powered industrial trucks or tractors equipped with forklift, elevated platform, or trailer hitch to move materials around a warehouse, storage yard, factory, construction site, or similar location. Exclude Logging Tractor Operators.
- 97951 Conveyor Operators and Tenders Control or tend conveyors or conveyor systems that move materials or products to and from stockpiles, processing stations, departments, vehicles, and underground workings. May control speed and routing of materials or products.
- 97953 Pump Operators Tend, control, or operate power-driven, stationary, or portable pumps and manifold systems, to transfer gases, liquids, slurries, or powdered materials to and from various vessels and processes.
- 97956 Operating Engineers Operate several types of power construction equipment, such as compressors, pumps, hoists, derricks, cranes, shovels, tractors, scrapers, or motor graders to excavate, move and grade earth, erect structures, or pour concrete or other hard surface pavement. May repair and maintain equip-

ment in addition to other duties. Exclude workers who specialize in operation of a single type of heavy equipment, such as a bulldozer or crane.

97989 - All Other Material-Moving Equipment Operators - All other material-moving equipment operators not classified separately above.

97999 - All Other Transportation and Material-Moving Equipment Operators - All other transportation and material-moving equipment operators not classified separately above.

Helpers, Laborers, and Material Movers, Hand - Except Agriculture and Forestry Laborers

Helpers - Mechanics and Repairers

98102 - Helpers, Mechanics and Repairers - Help mechanics and repairers in maintenance, parts replacement, and repair of vehicles, industrial machinery, and electrical and electronic equipment. Perform duties such as furnishing tools, materials, and supplies to other workers; cleaning work area, machines, and tools; and holding materials or tools for other workers.

Helpers - Construction Trades and Extractive Workers

98311 - Helpers, Brick and Stonemasons and Hard Tile Setters - Help Brickmasons, Stonemasons, or Hard Tile Setters by performing duties of lesser skill. Duties include supplying or holding materials or tools, and cleaning work area and equipment. Exclude apprentice workers and report them with the appropriate construction or maintenance trade occupation. Exclude construction or maintenance laborers who do not primarily assist Brickmasons, Stonemasons, or Hard Tile Setters.

98312 - Helpers, Carpenters and Related Workers - Help Carpenters or carpentry-related craft workers by performing duties of lesser skill. Duties include supplying or holding materials or tools, and cleaning work area and equipment. Exclude apprentice workers and report them with the appropriate construction or maintenance trade occupation. Exclude construction or maintenance laborers who do not primarily assist Carpenters or carpentry-related craft workers.

98313 - Helpers, Electricians and Power-Line Transmission Installers - Help Electricians or Power-line Transmission Installers by performing duties of lesser skill. Duties include supplying or holding materials or tools, and cleaning work area and equipment. Exclude apprentice workers and report them with the appropriate construction or maintenance trade occupation. Exclude construction or maintenance laborers who do not primarily assist Electricians or Power-line Transmission Installers.

98314 - Helpers, Painters, Paperhangers, Plasterers, and Stucco Masons - Help Painters, Paperhangers, Plasterers, or Stucco Masons by performing duties of lesser skill. Duties include supplying or holding materials or tools, and cleaning work area and equipment. Exclude apprentice workers and report them with the appropriate construction or maintenance trade occupation.
